

CATIE – Has \$50million helped us understand how better to treat schizophrenia?

PROFESSOR DAVID CASTLE

MBChB MSc MD DLSHTM MRCPsych FRANZCP

Chair of Psychiatry, St. Vincent's Hospital and The University of Melbourne
Consultant Psychiatrist, St. Vincent's Hospital, Melbourne
Hon. Professorial Research Fellow, MHRI of Victoria
Clinical Professor, School of Psychiatry and Neurosciences, University of W.A.

David is Chair of Psychiatry at St Vincent's Health and The University of Melbourne. His clinical and research interests include schizophrenia and related disorders, cannabis abuse, and bipolar disorder. A specific area of interest is the medical care of people with a mental illness. He is also pursuing his work on OCD spectrum disorders, notably body dysmorphic disorder.

David has published widely in prestigious journals, including around 300 papers and chapters; and has co-authored or co-edited 15 books. He has been successful in attracting substantial grant funding from a variety of different sources, and has strong local, national, and international research links. He is on a number of advisory boards and editorial boards, and is a regular reviewer for over 30 national and international scientific journals. David speaks regularly at local, national, and international scientific meetings about his research, and also teaches at undergraduate and postgraduate levels.
